

Hull

by Tom Fereday

Hull

Features

The Hull lounge was named after its intricate form, inspired by traditional boat building construction. Designed from the inside out the Hull lounge is incredibly efficient in both form and construction.

A unique framing technique, minimizes materials and increases strength.

Constructed from a single sheet of eco plywood the Hull's lozenge shaped form tapers in all directions creating a minimal, slim lounge with subtle curves, ensuring maximum comfort.

With entirely seamless upholstery from every angle, the Hull lounge intelligently avoids any visible zips or fittings.

The Hull range offers a variety of base options that include solid timber Walnut, Ash or stained black, upholstery, and a memory return swivel base (single lounge only).

Designed by Tom Fereday and manufactured by The SD Element, the Hull range features small and large ottomans, single and double seat lounges with high and low back options. The Hull range is finished in your choice of approved contract fabric or leather and features an optional European cross stitch detail, with the thread available in a limited range of colours.

Finishes

Fully upholstered in approved contract fabrics, vinyl and leather, with cross stitch thread available in a limited range of colours.

Care & maintenance

Fabric

Upholstered products such as lounges should be protected from direct sunlight as this may lighten fabric colour. Vacuum regularly on low suction. Regularly rotate reversible cushions to allow even fading.

Leather

Upholstered products such as lounges should be protected from direct sunlight, direct heat and weather. Regularly dust with a clean dry duster.

Powder coated & chrome steel

Chair and table legs should be wiped down with a soft damp cloth. Do not use abrasive cleaning products

Laminate

Desks & tables should be cleaned with a soft, damp cloth. Do not use abrasive cleaning products. Wipe any liquid spills away quickly.
